

# SUS IT OUT! GIVE TIME TO DO GOOD THINGS

SUS IT OUT! is a new week developed to give students, staff and local communities the opportunities to get involved with sustainability at Leeds.

In collaboration with Student Volunteering Week 19-23 February

## MONDAY 19 FEBRUARY

### ACTION DAY AT BATCLIFFE WOODS

Work with Countryside Ranger, Pete Banks, to help bring a new lease of life to Batcliffe Woods. The day will involve a range of practical conservation activities and litter picking.

**Time: 10am-3pm**

**Location: Meet at Langdale Terrace Entrance**

### DR. BIKE GOES LOCAL

Learn how to safety check a bike become a fully-fledged Dr. Bike! This volunteer opportunity will help you understand how to do a safety check and provide advice to others on how to keep their bike safe and secure! Putting your new skills to use you will do safety checks of bikes at one of our Dr. Bike sessions hosted in the local community .

**Time: 10am-1pm**

**Location: Mill Hill Unitarian Chapel, City Square, Leeds LS1 5EB**

### IMPROVING WASTE MANAGEMENT AND RECYCLING (1 of 2)

**Help us improve recycling and waste management practice in Hyde Park!**

Volunteers will work alongside Leeds City Council Waste Advisors to correctly number and label wheelie bins in Hyde Park with historically low recycling rates, messy gardens and where bins are left to obstruct pavements. Volunteers will engage with students and other residents to provide information and encourage better waste management practice.

**Time: 12am-3pm**

**Location: Meet at Popina's, Brudenell Road**

## TUESDAY 20 FEBRUARY

### MAPPING A SUSTAINABLE CAMPUS (1 of 2)

The Sustainability Service are producing an interactive campus map designed to be an active tool for the University community to use to become more sustainable. We will be mapping the location of water fountains, recycling points, edible plots, biodiverse spaces and bike stands and need your help collecting this data and consulting on the production of the map.

**Time: 10:30am-12pm**

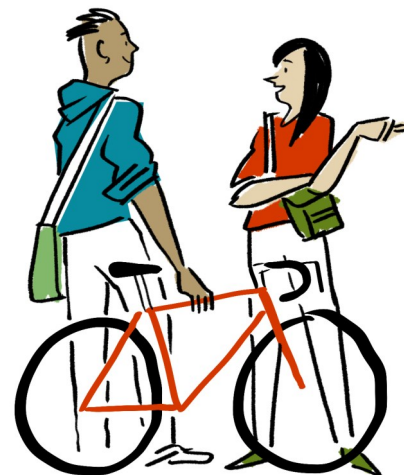

**Location: Parkinson SR (B.11)**

### CAMPUS ENERGY AUDITS (1 of 2)

**Help us to identify where energy is being wasted in campus!** Volunteers will audit buildings on campus and find where energy is being wasted. This includes identifying where old T12&T8 are so that they can be replaced, where lights are left on and room temperatures are set too high. Volunteers data will help us to make the necessary changes to reduce the University's energy consumption and carbon footprint.

**Time: 6-8pm**

**Location: Parkinson SR (B.11)**

## WEDNESDAY 21 FEBRUARY

### CAMPUS ENERGY AUDITS (2 of 2)

**Time: 11am-1pm**

**Location: Business School Maurice Keyworth SR (1.24)**

### CAMPUS RECYCLING CHALLENGE

**There's bin some changes around 'ere!** The University has set ourselves some new challenging waste targets. This includes increasing the amount of waste segregated at source to 60% and a total waste reduction of 10% by 2019-20. Help us achieve this target and with spreading the word about recycling on campus. At our pop up event you will challenge others to sort a sack full of waste in to the separate waste and recycling streams commonly available on campus and highlight any misunderstandings about what can and can't be recycled here at Leeds.

**Time: 11.30am-2.30pm**

**Location: Refectory Foyer**

### SUSTAINABLE GARDEN DROP-IN

Located in the heart of the University campus is our award winning Sustainable garden. The garden provides a multi-functional space for staff, students and visitors to campus to enjoy quiet contemplation but also to cultivate an allotment and-forest-style edible garden. Sustainability Volunteers can call in to our drop-in session and find out more about food growing. Tools, tea and biscuits are provided!

**Time: 2-4pm**

**Location: Sustainable Garden, Roger Stevens Building**

## THURSDAY 22 FEBRUARY

### AIR QUALITY MONITORING

The Living Lab for Air Quality project aims to measure and monitor air quality around campus to help drive environmental and health improvements. Volunteers will work in small groups to walk set routes within the campus whilst carrying air quality monitoring equipment. Dr Catherine Scott will introduce you to the topic and provide all the guidance you need before you head out to collect your data. On your return we'll upload the data so you can see the changes in air quality along the route you've just walked. The data you gather will help us to mitigate poor air quality around the University.

**Time: 11.30am-1pm**

**Location: Charles Thackrah SR 5 (1.05)**

### IMPROVING WASTE MANAGEMENT AND RECYCLING (2 of 2)

**Time: 12am-3pm**

**Location: Meet at Popina's, Brudenell Road**

## FRIDAY 23 FEBRUARY

### MAPPING A SUSTAINABLE CAMPUS (2 of 2)

**Time: 10.30-12pm**

**Location: Emmanuel Centre SR 07**

Join our dedicated Facebook Volunteering Group to find out more about the great things that Sustainability Volunteers are getting involved with and to book your place at events happening this week!
