

The University of Leeds and Leeds University Union are making a joint pledge to be **Single Use Plastic-Free by 2023**. Within this pledge, we have a series of targets which involve gaining a better understanding of our plastics footprint in order to reduce use of all kinds of plastic, improving our recycling capabilities and becoming single use plastic-free in our catering and office spaces by 2020. We stand ready to work in a collaborative and practical way to tackle this global challenge.

Sir Alan Langlands  
Vice-Chancellor  
University of Leeds

Chris Morris  
Union Affairs Officer  
Leeds University Union
